

SUPPLY CATALOG 2026

A New Era of Foliage.

RELIABLE SUPPLY FOR EXPORT

From Controlled Greenhouse to Cold Chain

We grow fresh fruit in modern soilless greenhouses to GlobalG.A.P. standards, with quality and food safety at the centre of our production approach.

STRAWBERRY: CONTROLLED GROWING

Consistent Quality in Soilless Greenhouses

We pack fruit selected for ripeness, calibre and durability — matched to destination requirements. From growing to harvest, packing to shipment, one goal: consistent quality and a reliable product.

PRODUCT PLAN: SEASON & SUPPLY

Group	Variety / Segment	Harvest / Supply
Strawberry	Export calibres, premium class	December – June

VALUE CHAIN

Controlled Greenhouse

Traceable soilless growing and consistent quality.

Selective Harvest

Careful picking by ripeness and calibre.

Export Packing

Hygienic grading and destination-specific packaging.

FRESHNESS CHAIN: COLD STORAGE

Pre-Cooling and Cold Room

After harvest, products are rapidly pre-cooled and moved into cold storage; the cold chain brings them to shipment-ready condition. Every lot is tracked with traceable records.

PRECISE PACKING

- Custom calibration to buyer demand
- Hygienic sorting and grading
- GlobalG.A.P.-aligned food safety
- Fast loading and dispatch planning

"For us, every pack is the prestige of our brand and of our buyer."

FOLIRA Assurance on Your Shelf

Quality · Trust · Traceability · Sustainability

Roots in production. Strength in technology.
Standard in quality. Ambition for the world.
